

### Description

#### A-DCFX9

The A-DCFX9 is a V-Mount adapter specifically designed for the Sony PXW-FX9. It converts the attached battery to the camera required 19.5V and supplies power via the DC input. By using it in combination with a small battery like the Imicro series, you can build a small and lightweight system that has a sense of unity with the camera.

### Features

- Converts attached V-Mount battery to 19.5V
- 2x D-Tap output
- Low level alarm LED
- Fits 1x Sony BP-U30/35 battery
- Capable of hot-swapping (BP-U battery must also be installed)
